

CURRICULUM VITAE

Kyeung Mi Oh, PhD, MSN, RN, FAAN

Professor
School of Nursing
College of Public Health
George Mason University
4400 University Blvd., Mail Stop 3C4
Fairfax, VA. 22030
Tel: (703) 993-4550
E-mail: koh5@gmu.edu

Date As of November 1, 2025

Education			
Ph.D.	Gerontology	2004	Sheffield Institute for Studies on Ageing, University of Sheffield, UK
MSN	Adult-Gerontology Clinical Nurse Specialist	1999	University of Sydney, Australia
BSN	Nursing	1998	University of Newcastle, Australia

Professional Experience			
-------------------------	--	--	--

Year	Institution	Position/Title
Aug 2025	School of Nursing College of Public Health George Mason University	Tenured Professor
Aug 2020-Aug 2025	School of Nursing College of Public Health (The college's name has been changed from the College of Health and Human Services) George Mason University	PhD Program Director
Jan 2020-Aug 2020	School of Nursing College of Health and Human Services George Mason University	Interim PhD Program Director
2014-Present	School of Nursing College of Health and Human Services George Mason University	Tenured Associate Professor
2007-2014	School of Nursing College of Health and Human Services George Mason University	Tenure-track Assistant Professor
2006-2007	School of Nursing College of Health and Human Services George Mason University	Post-doctoral Research Fellow
2005-2007	INOVA Fairfax Hospital	Registered Nurse Medical / Surgical Nursing

2000-2001	Sheffield Institute for Studies on Ageing, University of Sheffield, UK	Research Assistant
2000-2002	Sheffield LPNS Nursing Agency and Chesterfield BMI Hospital, UK	Registered Nurse Medical, Surgical, and Geriatric Nursing

Publications

Peer-reviewed Journals (*data-based publications) (+Publication with student) (#Senior Author)

- 2024-present: Positioned as the last senior author.
 - 2013 to 2023: Senior authorship (or Dissertation Chair role) held in the second placement (Note: The placement of nursing authorship for senior authors has not been clearly agreed upon. In the School of Nursing generally, the second placement should be reserved for the senior author following the first author, until recently).
61. Shin, C., **Oh, K.M.**, Lee, M., & An, K. (Under Review) Wearable Device Use and Sharing in Korean Americans with Cardiovascular Disease or Cardiovascular Risk Factors.
 60. **Oh, K. M.** Mohammadifirouzeh, M., Erickson, A., & Song, Y. (Under Review) Burden and Reward: Exploring Family Caregiving Experiences for Older Adults with Cognitive Impairment. *Research in Gerontological Nursing*.
 59. **Oh, K.M.** & Song, Y. (Under Review) Fear of falling and sleep disturbance in spousal are dyads affected by dementia. *Research in Gerontological Nursing. Journal of Applied Gerontology*.
 58. ***Oh, K. M.**, Hong, S., Beran, K.⁺, Song, Y. & Lee, J. (In press) Digital health literacy and self-efficacy in using ehealth resources among caregivers of individuals with ADRD. *Geriatrics & Gerontology*.
 57. Al-Hajiri, D. N., Kitsantas, Y., Weinstein, A. & **Oh, K. M.**# (2025) A Socio Ecological Exploration of Antenatal Exercise Among Pregnant Saudi Women. *Journal of Taibah University Medical Sciences*.20(4): 489-506.
 56. Al-Hajiri, D. N., Kitsantas, Y., Weinstein, A. & **Oh, K. M.**# (2025) Exploring Antenatal Exercise: Knowledge, Attitudes, and Practices Among Pregnant Women in Saudi Arabia. *Journal of Taibah University Medical Sciences*.20(3): 318-329.
 55. **Oh, K.M.**, Hong, S., Beran, K., Sanders, L., Park, J. Y., & Lee, J. (2025) Utilizing conversational AI technology for social connectedness among older adults: A systematic review. *Journal of Applied Gerontology*. doi.org/10.1177/07334648251341629.
 54. Alanazi⁺, S. Park, J. Y., & **Oh, K.M.**# (2025) Cross-Cultural Adaptation and Psychometric Evaluation of the Factors Influencing Adherence to Standard Precautions Scale – Student Version (FIASP-SV) for Saudi Arabian Nursing Students. *International Journal of Nursing Studies Advances*. 9. doi.org/10.1016/j.ijnnsa.2025.100358.
 53. Bates⁺, R., Matto, H. & **Oh, K.M.**# (Under Revisions). Cultural factors associated with adolescent opioid use: a scoping review. *Adolescent Research Review*.
 52. *Mohammadifirouzeh⁺, M., **Oh, K. M.**#, Basnyat, I., & Gimm, G. & (2025) Identifying facilitators and barriers to professional mental help-seeking behaviors among first generation Iranian Americans: A qualitative analysis. *Archives of Psychiatric Nursing*. 56.
 51. **Oh, K. M.**, Pierre, E., Beran, K. ⁺, Elnahas, N., Bates, R. & Kitsantas, Y. (2025) Characteristics and outcomes of medication-assisted **treatment** care models for pregnant women with opioid use disorder: A scoping review. *Journal of the American Association of Nurse Practitioners*.
 50. *Heydarian, N. M., Frankowski, S. D., Lee, M., **Oh, K.M.**, An, K. Shin, C., Hughes, A. S., & Bogart, K. (2025) Validating the Revised Attitudes Toward People with Disabilities Scale with Health Care Professionals. *Rehabilitation Psychology*. doi: 10.1037/rep0000594.

49. *Oh, K. M., Shin, C. Lee, M.J., & Beran, K. + (2025). Patient portal use among Korean Americans with and without chronic disease conditions. *Computer, Informatics, Nursing*.

Grant

Grant Full Proposal Invited and Submitted

Aug 2024 Submitted
 Jan 2024 Invited by the Retirement Research Foundation (RRF) to submit a full proposal titled "Development and Evaluation of a culturally and language-specific mHealth intervention for immigrant caregivers of individuals with Alzheimer's Disease and related dementias."

Funded Grants

July 2025- **NIH R44 PAS-22-196, Advancing Research on Alzheimer's Disease (AD) And AD-Related Dementias (ADRD)**
 June 2028

LifeBio Memory (LBM): Development of a reminiscence therapy online platform with machine learning to increase engagement

Phase IIB - Linguistic and Cultural Support with Life Story App (Total: \$2,992,725; GMU Subcontract: \$1,089,772)

My role: MPI

The effectiveness of LifeBio Memory (LBM) technology has shown promise in increasing engagement and social support through life story capture and reminiscence therapy (RT) opportunities among institutionalized older adults with cognitive impairment and formal caregivers. More than 1,000 individuals have been voice recorded in nursing home or residential living settings as a result of LBM Phase II SBIR grant. Now, as part of the Phase IIB renewal application, LBM aims to expand its reach and impact by developing an enhanced multi-language version of the app. This version will prioritize cultural and linguistic relevance, designed to meet the unique needs of dyads comprising Hispanic/Latinx, Asian American (including Korean), Black or African-American, and non-Hispanic White older adults at risk of or experiencing mild cognitive impairment (MCI) and their informal caregivers. The objectives of this Small Business Innovation Research (SBIR) application include updating LBM for culturally appropriate multi-lingual support, assessing its usability, and evaluating its feasibility, acceptability, and initial efficacy through a single-arm pre-post intervention study involving diverse racial and ethnic dyads. With 84 older adult participants and 84 informal caregivers, including representation from each targeted demographic group, outcomes such as quality of life, depression, relationship closeness, and loneliness will be measured at various intervals. Furthermore, user feedback and qualitative interviews will guide refinements to the LBM interface, ensuring an optimized user experience and broader accessibility.

College of Public Health (\$9,333)

A Culturally and Linguistically Tailored Web-App Intervention for Caregivers of Individuals with Early-Stage Dementia: A Pilot Study

1) To establish the study platform and 2) initiate a pilot study with 5 to 10 Korean and Hispanic participants.

May 2024 **GMU Summer Team Impact Grant**

Investigating the link between civic engagement, E-health, and health outcomes of older immigrants (\$78,087)

PIs: Limei Chen, Jung Yeon Park, Kyeong Mi Oh

The purpose of this proposed interdisciplinary project is to investigate the state of civic engagement among older adults of color in Fairfax County. This project will provide

- Dec 2023 students with a rich experiential learning in community-based participatory research with communities of color in Fairfax County such as skills in cultural adaptation of measures and cultural humility when working with older adults of color. The results of this study will be shared to promote and educate the communities on older adults' civic engagement in tandem with digital literacy for positive health behavior.
- May 2022 **William F. Castella Endowment Fund**
Health Information Trends Survey of Korean Americans (\$10,000)
 PI: Kyungh An (University of Texas, Health Center, San Antonio)
 My Role: Co-PI
 A survey tool was designed to evaluate the knowledge, attitudes, and usage of cancer- and health-related information among Korean Americans. This was accomplished by adapting pertinent items from the National Cancer Institute's Health Information National Trend Survey (HINTS) 5 Cycle 3 and subjecting the survey to standardized forward-backward translation into Korean for validation. From May to August 2022, a cross-sectional, community-based survey was conducted in four states of the United States (New Jersey, Ohio State, Georgia, and Texas) with 522 Korean Americans aged 40 and above residing in these areas. The survey data provides valuable insights into the health information needs and behaviors of Korean Americans.
- Aug 2020 – **Substance Abuse and Mental Health Services Administration**
 Mar 2022 Train, Immerse, Motivate, and Integrate (TIMI) Project
 (\$449,726)
 PI: Cheryl Oetjen
 My Role: Co-Investigator (10% effort), Program Evaluation
 TIMI built on 1) a curriculum infusion infrastructure already developed over the last 3 years by the Mason Screening, Brief Intervention, and Referral to Treatment (SBIRT) training grant funded by SAMHSA and 2) implementation in practice experience from the Virginia SBIRT grant that Mason executes for Department of Behavioral Health and Developmental Services.
- 2015-2016 **Provost Grant Multidisciplinary Research Initiative**
Graphic Text Messaging Intervention to Encourage Smoking Cessation Among First-Generation Chinese and Korean Immigrant Men
 (\$50,000)
 PI: Xiaoquan Zhao
 My Role: Co-PI
 This pilot study tested an intervention protocol that uses graphic texting messaging to promote smoking cessation among foreign-born Chinese and Korean male immigrant smokers. The primary goals of the project were to 1) assess the feasibility of the intervention approach in recruitment and implementation and 2) assess the impact of the intervention on quitting behavior. The project had two phases. Phase 1 focuses on the development of intervention messages. Phase 2 focuses on pilot testing these messages through a month-long intervention with members of the target population.
- 2014 **Sigma Theta Tau, Epsilon Zeta Chapter for Small Grant Award**
A Pilot Study of Cancer Health Education Culture-specific for Koreans – Underserved Population (CHECK-UP) program
 (\$2400)
 My Role: PI

- 2012-2013 **University of Northern Iowa Funding**
Risk Communication of the Korean Medical Tourism Industry: A Content Analysis of Medical Tourism Coverage on Korean American Newspapers
 (\$3,000)
 PI: Jungmi Jun
 My Role: Co-I
 This study aimed to assess the structural frames related to how Korean American community periodicals communicate the benefits and risks of Korean medical tourism.
- 2011 **GMU Summer Research Funding**
Cancer Screening and Cancer Information Seeking Behaviors among Korean Americans
 (\$4,000)
 My Role: PI
 The goal of this study was to examine the cancer information seeking and cancer screening behaviors concerning the seven most prevalent types of cancers for Korean-Americans. The study findings have been published by the Journal of Cancer Education; Journal of Health Communication; Health Education & Behaviors and presented at international and national nursing and Communication research conferences.
- 2010 **Sigma Theta Tau, Epsilon Zeta Chapter for Small Grant Award**
A Secondary Data Analysis Study Using 2008 Behavioral Risk Factor Surveillance System (BRFSS) Data on Breast Cancer Screening Practices among Asian and Pacific Islanders
 (\$2,000)
 My Role: PI
 This study aimed to (1) examine disparities in breast screening across ethnic groups (non-Hispanic Whites, non-Hispanic Asians, and Pacific Islanders) and (2) assess the association between-subject factors and breast cancer screening participation and factors influencing cancer screening participation for each ethnic group. The study results have been published in the American Journal of Health Behavior and presented at an international nursing research conference.
- 2007-2008 **College of Health and Human Services Seed Funding**
Health and Cancer Information Needs and Cancer Screening Practices of Korean Americans
 My Role: PI
 The aim of this study was to investigate the cancer information-seeking and cancer screening behaviors related to the seven most common types of cancer among Korean-Americans. The results of this study have been published in reputable journals, including the Journal of Cancer Education, Journal of Health Communication, and Health Education & Behaviors, as well as presented at various international and national nursing and communication research conferences.

- 2006-2007 Childhood Obesity Project Study
 PI: Jean Moore and Lisa Pawlowski
 My Role: Post-doctoral Research Fellow,
 Responsibilities included 1) providing a research intervention, 2) collecting data, 3) analyzing data, and 4) reporting the findings.
- 2006-2007 School Re-entry Pediatric Oncology Study
 PI: Jean Moore and Carol Kaffenburger
 My Role: Post-doctoral Research Fellow
 Responsibilities included 1) collecting data, 2) analyzing data, and 3) reporting the findings
- 2006-2007 Uniformed Assessment Instrument Evaluation Study
 PI: Lynn Gerber
 My Role: Post-doctoral Research Fellow
 Responsibilities included 1) collecting and managing data
- 2001-2002 Barnsley Health Authority, UK
Barnsley Rapid Response Evaluation Study
 (£5000: equivalent to about \$10,000)
 My Role: PI
 The Rapid Response Services (RRS) were designed to assist older patients who had recently experienced a sub-acute event and were at risk of hospital admission. The main objective of this study was to assess the performance of the RRS through quantitative evidence and examine the objective outcomes for patients. Additionally, the study aimed to provide insights into the process of introducing and implementing new types of services from the perspectives of both patients and staff. The findings of this study have been published in two nursing journals and presented at four national and international research conferences.
- 2001-2002 Yorkshire and Humberside's People: the impact of age structure change on the Region
 PI: Anthony Warnes
 My role: Graduate Research Assistant
 Responsibilities included 1) developing a literature review, 2) coordinating data collection and analysis, and 3) reporting findings
